

Same text, timestamps, embeddings, and influence edges

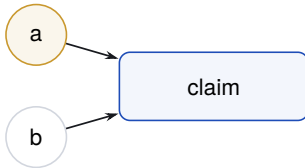

the failed source is identical; only retained justification grouping differs

AND world

$\{a, b\}$ is the only justification

a fails $\Rightarrow$ retire claim

OR world

$\{a\}$ and $\{b\}$ are alternative justifications

a fails $\Rightarrow$ retain claim on b

Quantifier reversal

Influence: a failed source occurs in *some* justification.

$$\exists S : a \in S$$

Revision: the audit must break *every* justification.

$$\forall S : S \cap R \neq \emptyset$$
